Bring your school's walls to life

Our process

Wall Art.

by Promote Your School

Use bespoke designed wall graphics to help communicate your school's visions and values, impress visitors, inspire learning and add a 'wow factor' to your school.

Our wall graphics include a bespoke design service to ensure you achieve the exact result that you want and communicate the message that's right for you.

Our design process ensures you are 100% happy with the final result.

Approval of specification and costs

This document contains the details of the areas we plan to cover as well as costs. Please do take time to read this thoroughly and ask any questions or request any necessary changes you would like to make.

First stage designs

Our designers will now be fully briefed and will create stunning design options for you.

The difference between the design options will vary depending on the design brief. Some schools want to see completely different styles, some are quite decided on what they want already, we can work to your needs.

Feedback and approval of designs

We want to ensure you are 100% happy with the final design, so we offer unlimited design amends within your original design brief, which means that you can feedback as much and as often as you like. As a general rule of thumb, designs tend to be around 85% complete at first draft stage, and undergo 2-3 rounds of minor amends before they are approved for installation.

Once you have received your designs feel free to ask questions and give us your feedback on your preferred design route.

Site survey and installation

Our team of experienced installers will visit your school prior to installation to do a detailed site survey, double checking all measurements and placement of fixtures and fittings. The installer will also advise you on any preparation work that might be needed before installation day.

We are used to installing at weekends and holidays without students around, which is generally preferred by schools, and adds to the 'wow factor' when everyone returns back to school to see their school's walls have been brought to life!

Corridor

Option 1: FR Dibond

Option 2: Conformable Wrap

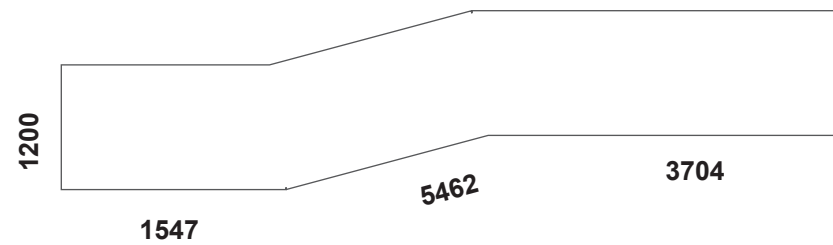

Option 3: Vinyl (assuming walls are plastered by the school beforehand)

Design notes: Local area map on LH return. Timeline on RHS - 45 events.

Stairwell

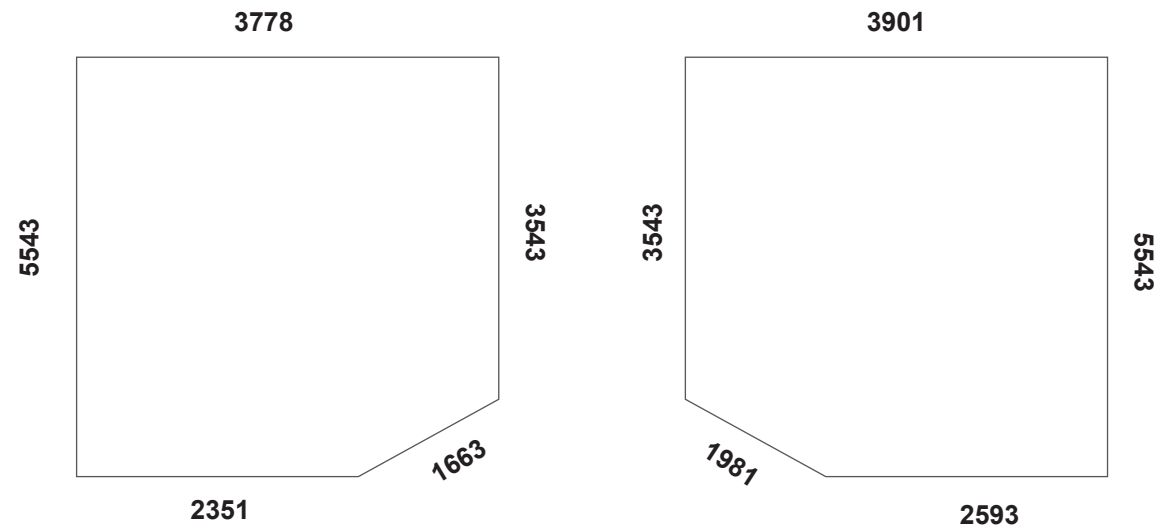

Vinyl

Design notes: Timeline 30-35 events.

Hall

Wall Wrap

Design notes: 6 houses - inspirational people (image, name, quote, short bio/significant traits)

Costs

Costs include design/artwork and print and production for each area, including unlimited amends.

Wall Art.

by Promote Your School
